

Data sheet SirMobile with digital amplifier DAM-150

Spherical loudspeaker

- Colour: white (paintable, optionally all RAL colours)
- Special painting of spherical loudspeaker possible on request
- Optionally available with LED flashing light on the spherical loudspeaker
- 5m connection cable Ölflex Classic 130H 4 x 1.5 and plug
- Weight: 8,2 kg
- Height: 300 mm
- Diameter of sphere: 254 mm / diameter of reflector: 375 mm
- Material: ABS
- Protection class IP55
- Mounting: Neodymium power magnet, 200 x 300 x 2.5mm
- Technical test according to DIN EN 75302

Digital Amplifier DAM-150

- Simple and intuitive operation via touch display or rotary knob
- Programmable languages DE | FR | EN | IT
- Freely programmable recording memory
- Voice announcements via microphone
- Test functions with reduced sound power
- Power supply via cigarette lighter, on-board socket or with power bank
- Alarm sequences programmable
- Temperature range: -20°C to +60°C
- Housing protection class: IP 31
- Operating voltage: 12 - 14 V DC
- Power output sounder: 1 x 100W (370 Hz)
- Housing / colour: aluminium / black
- Weight incl. microphone: 2.0 kg
- Dimensions (WxHxD): 243 x 68 x 195 mm
- Dimensions with handle (WxHxD): 285 x 68 x 217mm

Interfaces

- Microphone: RJ 45
- USB and Aux connection available
- Data communication: USB (type B)
- Line-in connection: 3.5mm jack plug
- Loudspeaker (and rotating light): XLR 4-pin, female
- Power supply: XLR 4-pin, male
- Data communication: USB (type B)
